## Leveled Problem Solving and Calculator Skills

The **Daily Math Puzzler Series** offers an easy-to-use program for daily word problem practice. The four ebooks in the series are labeled A through D, rather than with grade levels to allow for multiple levels to be used when differentiating instruction. Each ebook begins with an optional calculator skills lesson appropriate for that particular level. You'll find a teacher-directed lesson, a quiz, a retest, answer keys, and a partner game for practicing calculator skills. The remainder of each book consists of daily problem-solving practice pages and suggestions for using them. To see what's included at each level, click the book covers below to find these items on my Teaching Resources website. Then look at the complete previews for each book to see what's inside.
