WITH AUDIO DIRECTIONS

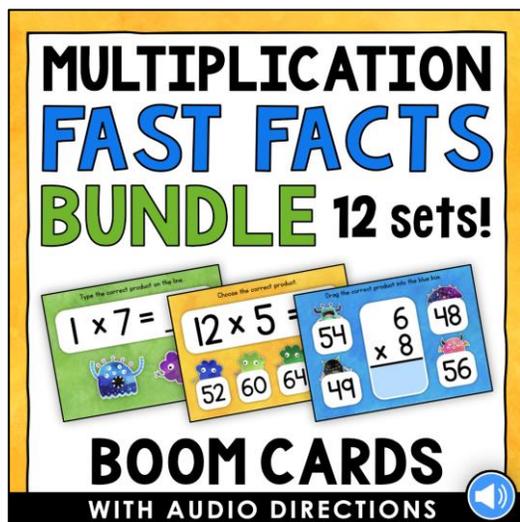

# How to Access Your Boom Cards

Boom Cards are digital resources that are hosted on [Boom Learning](https://www.boomlearning.com). Click the cover image to access this set of Boom Cards. If you have an existing Boom account, you'll be asked to log in and this deck will be added to your Boom Cards Library. If you don't have an account, please read the information on page 3 before you click the link.

# New to Boom Learning?

If you don't already have a Boom Learning account, when you select a set of Boom Cards and click on the Add to Boom Library link, you'll be prompted to create an account. [Click here](#) to read step-by-step directions that explain how to set up an account.

## How to Get Started with Boom Cards Free Video

An easy way to learn more about getting started with Boom Cards is to watch my Intro to Boom Cards video. [You can find it here in my TpT store.](#) Boom Learning also has terrific tutorials designed to help you master the platform.

Interactive, digital, self-checking, task cards that make learning fun!

Laura Candler's Teaching Resources

## Multiplication Fast Facts Boom Cards

- ✓ Multiplication Fast Facts Boom Cards are a fun way for students to develop fluency with multiplication facts. There are 12 sets with 24 Boom Cards in each set.
- ✓ Similar to flash cards, these self-checking digital Boom Cards make it easy for students master the multiplication facts, number by number.
- ✓ Each set includes all the multiplication facts for one number using all of the factors from 0 to 12. The cards are presented in random order, and the order changes each time the deck is played.
- ✓ Each card has an audio icon in the corner that students can click to hear the directions read aloud.
- ✓ If you have a paid Boom account, you can hide cards that are too easy or too challenging for your students. To do this, find the deck in your library and select Hide Cards from the menu. From there you can remove cards from the deck.

## More Information about the Boom Learning Platform

- ✓ To use Boom Cards, you must be connected to the Internet. Boom Cards play on modern browsers (Chrome, Safari, Firefox, and Edge). Apps are available for Android, iPads, iPhones, and Kindle Fires.
- ✓ If you use Google Classroom, you can import your class roster into your Boom Learning account to easily create student accounts. You can also assign Boom Cards to your students through Google Classroom.
- ✓ No matter which type of account you have, free or paid, you can use the Fast Play option to assign Boom Cards to your students. However, you won't be able to hide any cards or change the number of cards shown to students during each round of play. For additional options and data tracking, you'll need one of their many premium accounts. If you are new to Boom Learning, you will be offered a free trial of their premium account to help you decide if these features are worth the investment. [Click here to learn more about pricing and features.](#)

# Multiplication Fast Facts for 2

The thumbnail images below are provided as a quick reference for the teacher, and they aren't intended for student use. Follow the directions on page 2 to add these Boom Cards to your library. If some of the cards shown below are too easy or too challenging for your students, you can hide them from the deck. To do this, located the deck in your Boom Library BEFORE you assign it to your students and choose Hide Cards from the Action menu.

Drag the correct product into the blue box.

Choose the correct product.

Type the correct product on the line.
