MI Theory, Mindset, & Motivation

Free!

Webinar Presented by Laura Candler

MI Theory and Growth Mindset - Two Webinars in One!

MI Theory, Mindset, and Motivation began as a 90-minute long webinar, but after I added several strategies and freebies to the original presentation, I decided to divide it into two 60-minute sessions. In the first part, I focus on kid-friendly strategies for teaching multiple intelligence theory and how to help your students identify their unique talents and abilities. In the second part, I dig into growth mindset research and the impact of praise on student achievement. I also share practical strategies for helping kids break free of “fixed” thinking and develop a growth mindset. I wrap up the entire presentation by showing how MI theory and growth mindset research support each other in fostering a love of learning.

Visit my Webinars for Teachers page (www.lauracandler.com/webinars.php) to find out if a live presentation is available. Be sure to sign up for BOTH parts if possible. If a live presentation is not scheduled, you can find the entire 2-part presentation in my MI Theory and Growth Mindset Webinar Pack on TpT. Enjoy! ~ Laura Candler
