How to Submit DC Project Requests
on Caring Classrooms

www.facebook.com/caringclassrooms

Caring Classrooms on Facebook hosts a regular event called Fund-day Sunday during which you can request to have your project considered for our DonorsChoose page. We limit the number of projects on the page to 10, so submitting your project link is a bit like entering a lottery. However, even when your project is not selected, you will experience the joy of supporting other teachers! Be sure to read these guidelines before submitting your project:

- **When to Submit -** Watch for the call for projects that goes out each Sunday at 8:00 am EST on the Facebook page. Submit your project link and a description in a comment on that post.
- **Support Other Projects** - Every time you submit your project link, you must donate at least $1 to one or more projects on the Caring Classrooms page: www.donorschoose.org/caringclassrooms
- **$500 Limit** - To be eligible, a project must have less than $500 left to complete the funding, not counting matching grants.
- **Red Clock Projects** - We seldom add red clock projects that have less than 3 weeks on them, unless the amount needed is under $200.
- **Additional Projects** - After you have a project on the page, please do not submit another project for at least a month.
- **Your Projects Only** - Please do not submit projects for other teachers, especially if they are not contributing members of the group. Instead, tell them about our group and encourage them to submit their own projects.
