Telling Time Task Cards

Created by Laura Candler

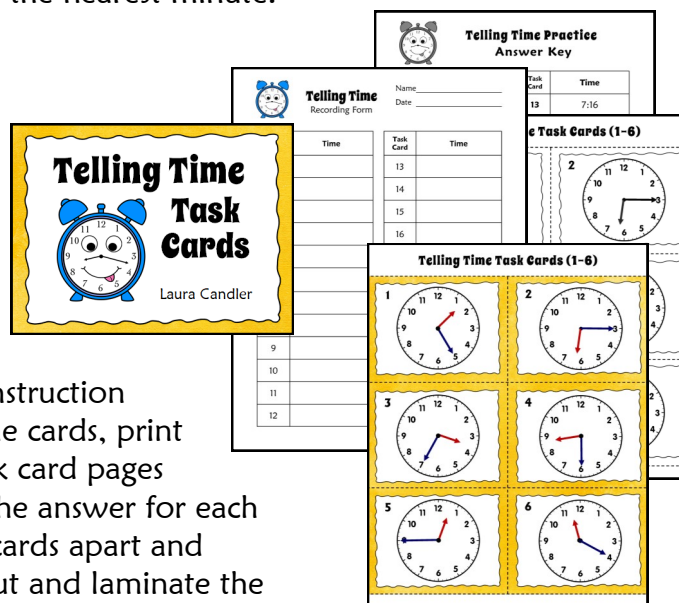

Telling Time Task Cards includes 24 clock face task cards, an answer recording form, answer keys, and QR code answers. These cards can be used with active engagement math games for partners or teams, in math centers, or even with a whole-class review. One set of cards has a yellow background, and black and white versions of the materials are provided, too.

Common Core Math Standards

The task cards included in this game address two Common Core Standards at different grade levels. The first 12 task cards address the second grade standard 2.MD.7 which requires students to tell time to the nearest 5 minutes. The next 12 task cards target the third grade standard 3.MD.1 which requires students to tell time to the nearest minute.

What's Included:

- Task Cards (24 color and 24 B&W)
- 24 Answer Cards and an Answer Key
- Recording Form
- Blank Clock Task Cards
- Task Card Covers

Preparing the Cards

Print the task cards on sturdy cardstock or construction paper. If you want answers on the backs of the cards, print the answer card pages on the backs of the task card pages before laminating them. If aligned properly, the answer for each card will appear on the reverse side. Cut the cards apart and store each set in a plastic zippered bag. Cut out and laminate the cover cards on page 22 or 23, and when students bag up the cards, ask them to put the cover on top.

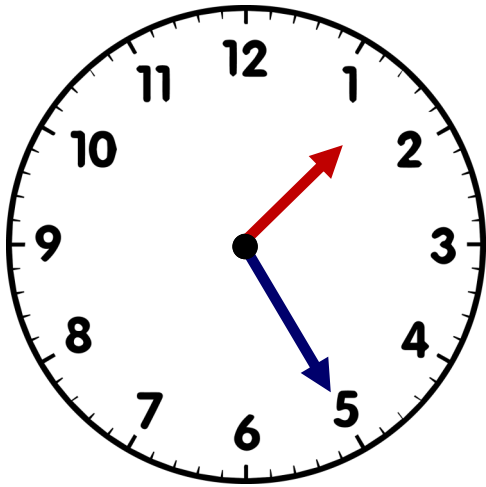

Games for Task Cards

Looking for ways to use these task cards? Check out my [Games for Task Cards bundle](#) on TpT. Each game can be customized by adding your own task cards on any topic. Game materials have generic directions and clipart to make them work in any subject area. So you only need to print and prepare the game materials once, and then you can use them over and over! These games are so fun that your students will beg to play them all year!
